

# Johndec Engineering Plastics

## Specialised custom thermoplastics fabrication

Johndec Engineering Plastics Pty Ltd with over 40 years experience, specialise in the complete range of custom Plastic Fabrication, covering an extremely diverse customer base for a wide range use, in fact, we can fabricate any of your ideas from plastics sheeting and piping, no matter how extreme the conditions in:

- ▶ Polyvinyl Chloride (PVC)
- ▶ Polyvinylidenechloride (CPVC)
- ▶ Polypropylene (PP)
- ▶ Polyethylene (PE)
- ▶ Polyvinylidene Fluoride (PVDF)
- ▶ Ethylene tetrafluoroethylene (ETFE)
- ▶ Ethylene - Chlorotrifluoroethylene Polymer (ECTFE)
- ▶ Polytetrafluoroethylene (PTFE)
- ▶ Fluorinated Ethylene propylene Polymer (FEP)
- ▶ Perfluoroalkoxy (PFA)
- ▶ Acrylics
- ▶ Acrylonitrile Butadiene Styrene (ABS)

Listed below are examples of equipment that Johndec Engineering Plastics Pty Ltd have manufactured and designed in the above types of plastics materials.

- ▶ Specialised fabrication and design.
- ▶ Custom made equipment.
- ▶ Fume cupboard and exhaust hoods.
- ▶ Exhaust fans.
- ▶ Fume Scrubbers.
- ▶ Lab sink bowls, drainers and troughs.
- ▶ Bench tops.
- ▶ Tanks and vessels.
- ▶ Launderers.
- ▶ DIBK separation tanks.
- ▶ Electrowinning cells and spare parts.
- ▶ Corrosion proof machinery guards and shields.
- ▶ Corrosion protective liners.
- ▶ Supply of thermoplastics pipe, fittings and sheet.
- ▶ Pipe bending and slotting.
- ▶ Exhaust ducting.
- ▶ Chemical Neutralising Facilities.
- ▶ Plaster traps.
- ▶ Machining thermoplastics.
- ▶ On-site repairs and plastic welding.
- ▶ Installation of thermoplastic pipe systems including bracketing and supports.

Please contact our sales office should you require any information on the above.
